LUDUS ALLIANCE AND SPORTCENTRUM TAPIA PRESENT:

The 1st Online International Athletic Martial Arts Tournament

You are invited to come experience a new and exciting martial arts sporting format! Face off against other athletes and see who is the fastest in your club (and maybe the world, too).

For the first time, athletes from the Netherlands and Israel will face off against each other in a battle of speed and decision making. What's the difference here from other competitions? Athletes don't need to leave their club in order to compete in our international competition - it all happens online (apart from the performance part, of course). This saves a lot of time and money compared to standard international martial arts competitions. Not only that, but it is open to athletes from all martial arts.

Whether you've come to compete or to spectate, there is something for you - just be ready, and stay focused because anyone can win at any time!

For those of you who do not know, Athletic Martial Arts is a technology-based sport that involves measuring physical and cognitive elements of various martial arts techniques. Techniques are measured by performing a strike on our Smart Paddle

(CS-Paddle). The CS-Paddle has signal lights that indicate to the athlete when to strike, which allows us to measure skills such as response time, decision making, stamina, and power.
